Dashboard Design

Date	24 September 2024
Team ID	
Project Name	Health360: Executive Analytics & Population Health Dashboard
Maximum Marks	5 Marks

Activity 1: Interactive and visually appealing dashboards

The **Health360 Master Dashboard** integrates 9 dedicated visual worksheets into a single-screen grid layout equipped with instant global cross-filtering, dynamic action filters, and clear visual hierarchy.

Below are the major analytical outcomes derived directly from the Master Dashboard visualization:

- **Population Scale & Risk Baseline:** The dashboard monitors a 5,000-patient cohort, establishing a population baseline risk score of **1.57**, a **36% chronic condition rate**, a **33% sedentary lifestyle rate**, and **3,798 high-risk patients** requiring clinical oversight.

- **Clinical Risk Drivers (Vitals Correlation):** The scatter plot reveals clear risk elevation as Blood Pressure rises above **140 mmHg** and Cholesterol exceeds **220 mg/dL**, with calculated risk scores reaching their maximum (color-coded red at **5.0**) in the upper-right quadrant.
- **Chronic Disease Concentration:** Diabetes leads total chronic disease prevalence across the cohort (peaking at **660 patients** in the Normal BMI bracket), followed closely by heart disease (**550 patients** in Overweight) and Stroke (**481 patients** in Normal BMI).
- **Behavioural Risk Compounding:** The lifestyle heatmap demonstrates that substance co-occurrence drives elevated risk, where smokers who drink alcohol exhibit elevated risk scores (**2.06 to 2.17**) regardless of physical activity level compared to non-smokers (**0.98 to 1.12**).
- **Weight & Life-Stage Stratification:** The population weight distribution shows that **33.42%** of patients are Overweight and **16.06%** are Obese (totalling **49.48%** carrying excess weight), while demographic pyramids highlight **Middle Age** and **Senior** cohorts as the largest clinical care consumer segments.

Activity 2

Below is the live public web link for interactive cloud-hosted exploration of the Health360 Master Dashboard and Executive Story:
