Demonstration of Proposed Features

Date	31 January 2026
Team ID	0827CY231062
Project Name	Health360: Executive Analytics & Population Health Dashboard
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S. No.	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Executive KPI Scorecards (BANs)	High-level BAN cards displaying Total Patients (5,000), Average Risk Score (1.57), Chronic Condition Rate (0.36), Sedentary Rate (0.33), and High-Risk Count (3,798).	Implemented	Yes	Fully integrated at the top of the Master Dashboard; dynamically updates with global cross-filtering.
2	Vitals Risk Correlation Matrix	Scatter plot mapping Systolic/Diastolic Blood Pressure against Serum Cholesterol, color-coded by composite Calculated Risk Score.	Implemented	Yes	Clear quadrant reference lines highlight critical cardiovascular intervention zones for Dr. Michael Carter.
3	Behavioural Lifestyle Heatmap & Co-occurrence	Multi-variable heatmap grid and stacked bar chart evaluating Smoking Status, Alcohol Usage, and Physical Activity against average risk scores.	Implemented	Yes	Successfully isolates compounding lifestyle risk multipliers for Emily Rodriguez.

4	Demographic Life-Stage Stratification	Population pyramid and stacked BMI distribution pie chart categorizing patients across age brackets (Children to Elder) and weight classifications.	Implemented	Yes	Provides population health distribution insight across male and female patient cohorts for Dr. Priya Nair.
5	Single-Screen Master Dashboard with Interactive Cross-Filtering	Consolidated single-page grid canvas linking all 9 visual worksheets with dynamic, zero-latency action filters.	Implemented	Yes	Clicking any chart element (e.g., Obese slice or Senior bar) updates all 9 dashboard components simultaneously.
6	9-Point Guided Executive Tableau Story	Sequenced 9-step storyboard providing a logical narrative walkthrough from macro population KPIs down to granular symptom prevalence.	Implemented	Yes	Fully deployed on Tableau Public Server for zero-footprint web presentation and stakeholder review.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
